

Learning with our experts.

Would you like to combine different topics from our offer in one seminar or discuss specific technical questions with our experts?

Would you like to train your entire team in selected topics?

Then we would be happy to plan an [individual seminar](#) with you.

09.10.2024 | Herdecke | Industrial Coatings

Corrosion tests in artificial atmospheres

The aim of this seminar is to provide a basic, practice-oriented introduction to the subject of corrosion testing.

10.10.2024 | Herdecke | Industrial Coatings

Korrosionsprüfungen in künstlichen Atmosphären

Ziel dieses Seminars ist der grundlegende, praxisorientierte Einstieg in die Thematik Korrosionsprüfungen.

10.10.2024 | Herdecke | Industrial Coatings

Bolt connections & coefficient of friction (beginner)

The aim of this seminar is to convey basic knowledge about bolted connections.

30.10.2024 | Web-Konferenz | Industrial Coatings

Automobilspezifikationen und spezielle Normen für Schrauben mit Zinklamellenüberzügen

Korrosionsschutz für Schrauben ist ein spezifisches Thema, das in verschiedenen Normen definiert ist. Insbesondere die deutsche Automobilindustrie definiert ihre Anforderungen in Spezifikationen - meist in Deutschland diskutiert, aber mit weltweiter Relevanz.

14.11.2024 | Web-Konferenz | Industrial Coatings

External certificates of DÖRKEN zinc flake systems for high corrosion protection

The aim of this compact online seminar is to share knowledge and sum up experience and test results of pilot customers and technical institutions.

26.11.2024 | Herdecke | Industrial Coatings

Bolt connections & coefficient of friction (advanced)

The aim of this seminar is to impart in-depth knowledge about bolted connections.

27.11.2024 | Herdecke | Industrial Coatings

Schraubverbindungen (Fortgeschrittene)

Ziel dieses Seminars ist die tiefgehende Vermittlung von Wissen rund um Schraubverbindungen

28.11.2024 | Web-Konferenz | Industrial Coatings

Galvanic Corrosion – Considerations for the selection of suitable material combination

In this webinar, the topic will be illustrated using test results to show the performance of different coating systems when installed with diverse materials

05.12.2024 | Web-Konferenz | Industrial Coatings

Evolution of corrosion tests

It especially describes the performance of zinc flake systems in different environments and gives some examples of successful outdoor exposures.
